

## Certificate of Compliance

### Made in America & American Steel Content

This document certifies that Copperhead Industries' copper-clad steel (CCS) tracer wire, both the copper-clad steel conductor and the HDPE jacket, as well as Copperhead's SnakePit Access Points including the body moldings, lids, and collars are produced in the United States of America. This satisfies the Made in America requirements included in the following:

- The Consolidated Appropriations Act, 2014, H.R. 3547.ENR - Use of American iron and steel, section 436
- The Consolidated Appropriations Act or 2017 (Public Law 113-76) American Iron and Steel Act (AIS)
- AIS requirement as mandated by Section 746 of Title VII of the Consolidated Appropriations Act of 2017 (Division A-Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2017) and subsequent statutes mandating domestic preference.
- Buy America program of the U.S. Department of Transportation
- Buy American Act 49 USC 51101
- Surface Transportation Assistance Act of 1982
- American Recovery and Reinvestment Act of 2009
- Build America, Buy America Act of 2021
- Infrastructure Investment Act of 2021

The Copperhead tracer wire conductor is manufactured in Fayetteville, Tennessee, and the HDPE jacketing is manufactured in Monticello, Minnesota and Camden, New York. The steel SnakePit lids and collars are produced in Ludington and Holland, Michigan. The plastic body is manufactured in Jackson, Michigan. The steel used in the processes is produced exclusively in the United States of America.

Sincerely,

*Kris Atwood*

Kris Atwood  
Vice President, Copperhead Industries
